

Portfolio

A singular page, with links to different examples of some of my work compiled over my recent education and over my time in WRA210.

Resume'

Even more basic than the portfolio page, this page would simply include a link to a PDF of my current resume'.

Contact

This page would not contain any other links, but simply present multiple ways of contacting me. (Email, phone, address)

I drew inspiration from the fact that I wanted to keep my page very simple, let interesting enough to let someone know that I do care about the page. Although my web working skills may be slim, I can use what I know to get my name out via the World Wide Web, which is always a plus.

A section containing my other social network pages could also be included.
